MEASUREMENT & VERIFICATION • LEED • ENERGY SAVINGS

Thermal Dispersion Airflow Measurement Stations
Room Pressurization Sensors
Raised Floor Pressurization Sensors

Liquid, gas, and steam flow meters
Natural Gas Flow Meters and BTU meters

Pressure Independent Temperature Control Valves
Auto Flow/Dynamic Flow Valves/Balance Valves

Engineered Packaged Pumping Systems
Solar Thermal Systems
Rain Water Collection Systems

Low Leakage Control Dampers
Thermally Insulated Control Dampers

Gas Detection and Indoor Air Quality Sensors
Parking Garage Exhaust Control Systems

Refrigerant Leak Detection and Monitoring Systems

LEED Minimum Outside Airflow Verification & Alarming

Smart Grid Peak Load Reducing Controls

Energy Management Lighting Control System
